Due to the heavy rainfall the road to the school were damaged and the construction materials were unable to transport from 2 hours walking distance to the construction site in vehicle (truck). But the community people of Katunje construct a walking path by themselves and brought cement, colors and sands to the construction site from 2 hours walking distance (From Bohore Bhanjyang to the School). They have carried almost 150 sacks cement, more than 25 buckets color and 2 truck sands. Pray for the good health and prosperity in the life of the Katunje Community people.
